Projects

UX/UI CareerFoundry Project- Olive

March 2023-Feb 2024

App enabling users achieve their wellness goals

- Applied human-centered design process and mobile-first approach to design a responsive app for users to track their health and wellness
- Defined user needs and goals through user interviews and surveys, and designed artifacts such as personas, user journeys maps, and sitemaps
- Established a design system from the UI patterns derived from high-fidelity wireframes and prototypes validated through usability and preference tests

Experience

The Kitchen Door- Napa, California

January 2015-2016
Sous Chef

- Collaborated within a dynamic culinary team to ensure seamless operations, leveraging problem-solving skills to overcome challenge in a high-pressure environment
- Demonstrated adaptability and versatility by transitioning from line cook to managing multiple kitchen stations, showcasing a commitment to excellence in culinary craftsmanship

Roy's Station- San Jose, California

August 2013-March 2014
Barista

- Provided exceptional customer service, as well as utilized problem solving skills to address customer concerns in a fast-paced cafe environment, fostering positive interaction with patrons
- Assumed managerial responsibilities, demonstrating reliability and trustworthiness in overseeing daily operations
